

ENGLISH LYRICS

Every nation has its own flag.
Every nation has its own flag.
Ours is like the sky without any signs of
clouds
All of which we have come to love.

Oh you White Star, at your service we are
Oh you White Star, at your service we are
Superior you are, in any part of our land
Be famous oh Star, like the sun

Every nation has its own flag.
Every nation has its own flag.
Ours is like the sky without any signs of
clouds
All of which we have come to love.

On the day you arose, our hearts you
have
On the day you arose, our hearts you
have
Purified with pureness
O Allah, do not dim the flag, pray we in
this night

Every nation has its own flag.
Every nation has its own flag.
Ours is like the sky without any signs of
clouds
All of which we have come to love.
